## **Errata Sheet**

### **For**

**October 20, 2003 FWS Biological Opinion entitled: Formal and informal consultation on activities that may affect listed species in the Rogue River Basin for fiscal year 2004 through fiscal year (FY) 2008 (log # 1-14-03-F-511).**

#### **Pg 6. Table 1. Proposed Action**

Table 1 shows 31,622 acres removed or downgraded under the timber harvest project category and is incorrect.

Change 31,622 acres to **31,621** acres

#### **Pgs 66 and 67.**

Removal and downgrade of NRF reads as 31,622 acres in paragraphs 3 and 4 on pg 66 and paragraph 2 on pg 67 and is incorrect.

Change 31,622 acres to 31,621 acres.

#### **Pg 67.**

The sentence that begins “the removal and downgrading of 30,485 acres of NRF” in paragraph four is incorrect.

Change 30,485 acres to 30,484 acres.

#### **Pgs 105 and 107. Incidental Take Statement**

The ITS for the spotted owl refers to the anticipated take of up to 31,261 acres of NRF in both the “Amount of Take” and in the “Effect of Take” portions of the ITS and is incorrect.

Change 31,262 acres to 31,621 acres.

#### **Pg 111. Term and Conditions**

Term and Condition number 2 on page 111 reads as follows and is incorrect;

To address RPM 2 and 3, limit the removal of all suitable spotted owl nesting habitat and murrelet suitable habitat to outside of the critical nesting seasons for both species unless protocol surveys indicate the habitat is unoccupied.

Term and Condition Number 2 should read;

To address RPM 2 and 3, limit the removal of all suitable spotted owl nesting habitat and murrelet suitable habitat **within LSRs** to outside of the critical nesting seasons for both species

December 1, 2003

unless protocol surveys indicate the habitat is unoccupied. Please insert the words “within LSRs” in the appropriate place in this Term and Condition.

**Appendix A. PDC's, pg 17**

The mandatory PDC for spotted owls under Quarry Development is incorrect and should read as follows:

Spotted Owl

a. Mandatory

(1) For active nest sites, apply the distances prescribed under Tree Harvest PDCs above, which restrict operation of quarries from March 1 through June 30 (unless protocol surveys demonstrate non-nesting).
